 - Overview recap of old business. Nothing new to add.
 - Discussion of AHJ meeting held on June 19th, 2018.
 - Talks with MEC about the line side lug tap with PV system installations.
 - MEC found that the lugs being used and sold are NOT UL listed and they would not allow the hookup with this installation method.
 - ILLOWA AHJ's agreed that without supporting documents and testing the installation would violate code.
 - Discussed the issues involved with pool contractors, the electrical installation, and difficulties completing final inspections.
 - AHJ's talked about different strategies for compliance and uniformity amongst jurisdictions.
 - Continued discussion about intergovernmental agreements amongst local jurisdictions on both sides of the river. Not only for small help with inspections while on time off but with help in the event of a large disaster in a small community without the resources to facilitate a large scale rebuild.
